

## Spider

I'm bitten by a spider  
most poisoness of all  
I'm bitten by a spider  
his venom made me fall  
I hope I'll stay forever  
paralized  
I hope I'll stay forever  
in this natural high

The first time I was bitten  
my body was too strong  
The first time I was bitten  
I messed up right and wrong  
I guess the spider likes me  
Guess I'm a lucky guy  
I guess the spider likes me  
You don't get bitten twice

The world is upside down  
but I like it more this way around  
Hello insanity  
you're much more rewarding than routine  
When rules go up in flames  
logic's playing silly games  
I watch reality  
approach and bounce right off of me

I love the way it burns inside of me  
and underneath my skin  
I love the way how I am tied down  
screaming let the games begin  
I love you spider love you spider  
love you spider love you so

No matter where I go to  
my goal remains the same  
if someday I may reach her  
she'll make the poison stay  
before my body makes me  
grow up and normalize  
she's got what it takes yeah  
to keep the dream alive

The world is upside down  
but I like it more this way around  
Hello insanity
