

# Troubled Child

Come follow me, come sip my poison, I'm the dean  
Of what you're not supposed to do  
My Troubled Child (my troubled child)  
I need you like you need me  
Like nothing else we know it's true

Will we sink into oblivion, fade into the day, stone inside a cage  
Will we walk just like amphibians one day emerged the waves  
Or someday even fly

You are harmony, you're love, you're hopes and dreams  
You're my favorite song, listen to you all night long  
You are unbelievable  
You're all that's holding me (you're all that's holding me)  
Together

Let's find a place to shove the questions, when we need  
To take a breath, or maybe two  
The future's scared (the future's scared)  
Of you and me, but you don't need  
To be a sport and be scared too

Will we sink...

You are harmony...

I'm an elevator, come and see the sky with me  
I'm an incubator, come accelerate some life with me  
I have wings, I think I do, come on and fly with me  
I have things to do, please come move them aside with me
